MindSpace Technologies

MindSpace Software Technologies Pvt. Ltd. is a premier software development, and IT consulting company.

With a market presence of over 12 years now, MindSpace is committed to delivering the best quality products and services.

Being a recognized leader in delivering IT capabilities that enhance the human experience, ignite and power global commerce, and secure and protect your most critical information. Serving the enterprise customers, MindSpace delivers innovative technology solutions encompassing client/server and web technologies, enterprise wide computing and technology consultancy. Within this broad ambit of technology, we offer a wide range of software services across platforms and scales and offer end-to-end solutions right from design, strategy to development, implementation and support. We deliver comprehensive business solutions to allow businesses to cost-effectively engage and transact with customers and partners. We are committed to help people solve the world's greatest challenges.

From education, insurance, logistics, manufacturing, retail and consumer goods, import/export, banking and financial services, MindSpace promises to provide world class services to every sector.

Having given an opportunity to work with you for the government sector, we promise to put our efforts building a better future for this country.

WHO WE ARE

MindSpace Technologies is leading Software Development and an IT consulting Company. Since its inception in year 2000, the organization has continuously leveraged its experience and performance record to grow into a provider of comprehensive Information Technology (IT) services. Serving the enterprise customers, MindSpace delivers innovative technology solutions encompassing client/server and web technologies, enterprise wide computing and technology consultancy.

Within this broad ambit of technology, we offer a wide range of software services across platforms and scales and offer end-to-end solutions right from design, strategy to development, implementation and support. We deliver comprehensive business solutions to allow businesses to cost-effectively engage and transact with customers and partners. This helps in building trusted relationship with our customers.

MindSpace strongly believes in the phrase "Positive Minds, Positive people". We have a very Positive, competent and passionate team, who work positively together as one unit. There's lot of fun while working, making the working environment very positive and happy.

OUT TEAM

Our development team

Delivering superior service and business solutions requires a multi-disciplined, industry focused approach. We have therefore established a dedicated Team of professionals with in-depth industry experience, ensuring our clients receive comprehensive advice from a Team who ultimately understands their business. Building strong relationships with our clients means a thorough understanding of the long term needs and goals of each client.

Our team is the backbone of our mission and professionals from various backgrounds work together to broaden individual knowledge & skills and blend expertise in various industry and service practices, to in turn meet the challenging business demands and requirements of the global client community. And with this growing team of experts, we have no reason to stop.

We Share Knowledge

At MS, we believe that knowledge is for sharing. We understand that keeping our Team up-to-date on global technical and industry developments ensures we consistently provide our clients with the best service and advice, no matter where they do their business. Because when our clients grow, we grow.

WHAT WE DO

MindSpace has the potential and the resources to work on multiple platforms and deliver highly scalable products to the customers. We have the expertise to work on Windows, IOS, Android, Symbian and BlackBerry operating systems and we are confident to set a benchmark of excellence with every product that we develop. We are capable of developing applications for the mobile phones, and for tablets.

MindSpace also specializes in the field of augmented reality and has been developing applications on AR for some of the reputed names in the business.
